Revision Technique

How to revise during exams

Work on what you don't know...

...If you're not sure what this is then try to stack the odds in your favour by looking at what comes up most often. An example of this is highlighted below for higher and foundation maths.

Algebraic Fractions (Simplifying)	8+	91%
Linear Equations (with fractions)	4+	91%

Follow the link below for a full look:

Revision Resources

**ALWAYS BEGIN WITH THE
END IN MIND.**

Do you know what the mark scheme looks like for each of your subjects? Do you know what will and won't score you marks?

[AQA Chemistry Mark Scheme](#)

Pastoral

Things we know we should do but sometimes don't!

8-9 hours sleep improves concentration and recall

Exercise releases endorphins and helps focus

Eating breakfast improves mental alertness

Using a revision timetable reduces stress

Drinking water helps mental cognition
