### **EDEXCEL Maths HIGHER CHECKLIST 2023**

# Algebra

| I can<br>do<br>this | Grade | Title                                       |
|---------------------|-------|---|
|                     | 9     | Approximate solutions to                    |
|                     | •     | equations using iteration.                  |
|                     | 9     | Equation of a circle                        |
|                     | 9     | Equation of a tangent                       |
|                     | 8     | Algebra and Proof                           |
|                     | 8     | Gradients and area under a graph            |
|                     | 8     | Graphs of trigonometric functions           |
|                     | 8     | Quadratic equations (completing the square) |
|                     | 7     | Composite functions                         |
|                     | 7     | Expand the product of two or more binomials |
|                     | 7     | Factorising difficult quadratic expressions |
|                     | 7     | Geometric Sequences                         |
|                     | 7     | Graphs of exponential functions             |
|                     | 7     | Quadratic equations (needing                |
|                     | ,     | re-arrangement)                             |
|                     | 7     | Quadratic equations (quadratic formula)     |
|                     | 7     | Real-life exponential graphs                |
|                     | 7     | Represent quadratic inequalities            |
|                     | 7     | Simultaneous equations (non-<br>linear)     |
|                     | 7     | Solve quadratic inequalities                |
|                     | 7     | Translations and reflections of a function  |
|                     | 7     | Turning points & completing the square      |
|                     | 6     | Algebraic fractions                         |
|                     | 6     | Identifying parallel lines                  |
|                     | 6     | Inverse functions                           |
|                     | 6     | Linear inequalities in two variables        |
|                     | 6     | nth term of a quadratic sequence            |
|                     | 6     | Quadratic equations (factorisation)         |

| I can<br>do<br>this | Grade  | Title  |
|---------------------|--------|--|
|                     | 6      | Quadratic equations (graphical methods)              |
|                     | 6      | Represent linear inequalities                        |
|                     | 6      | Simultaneous equations (linear)                      |
|                     | 5      | Algebraic argument                                   |
|                     | 5      | Algebraic terminology                                |
|                     | 5      | Cubic and Reciprocal graphs                          |
|                     | 5      | Deduce quadratic roots                               |
|                     | 5      | algebraically  |
|                     | 5      | Derive an equation                                   |
|                     | 5      | Equation of a line                                   |
|                     | 5      | Expand the product of two                            |
|                     |        | binomials  |
|                     | 5      | Factorising quadratic                                |
|                     |        | expressions  |
|                     | 5      | Fibonacci, quadratic and simple                      |
|                     |        | geometric sequences  Graphical solution to equations |
|                     | 5<br>5 | Graphical solution to equations                      |
|                     |        | Inequalities on number lines                         |
|                     | 5      | Linear equations                                     |
|                     | 5      | Quadratic graphs                                     |
|                     | 5      | Reciprocal real-life graphs                          |
|                     | 5      | Simplify indices                                     |
|                     | 5      | Simplify surds                                       |
|                     | 5      | Solve linear inequalities in one variable            |
|                     |        | Writing formulae and                                 |
|                     | 5      | expressions  |
|                     | 4      | Changing the subject                                 |
|                     | 4      | Collecting like terms                                |
|                     | 4      | Expressions  |
|                     | 4      | Factorise single bracket                             |
|                     | 4      | Finding the equation of a line                       |
|                     | 4      | Graphs of linear functions                           |
|                     | 4      | Graphs of quadratic functions                        |
|                     | 4      | Linear equations one unknown                         |
|                     | 4      | Multiplying single brackets                          |
|                     | 4      | Non-standard real life graphs                        |
|                     | 4      | nth term of a linear sequence                        |
|                     | 4      | Number machines                                      |
|                     | 4      | Substitution   |
|                     | 4      | Using "y = mx + c"                                   |

### **EDEXCEL Maths HIGHER CHECKLIST 2023**

## **Geometry and Measures**

| I can |       |                                  |
|-------|-------|----------------------------------|
| do    | Grade | Title                            |
| this  |       |                                  |
|       | 8     | Circle theorems                  |
|       | 8     | Vector arguments and proof       |
|       | 7     | Area of a triangle               |
|       | 7     | Cosine Rule                      |
|       | 7     | Pythagoras and trig 2D and 3D    |
|       | 7     | Sine Rule                        |
|       | 6     | Combined transformations         |
|       | 6     | Congruence and Similarity        |
|       | 6     | Standard trigonometric ratios    |
|       | 5     | Arc lengths and sectors          |
|       | 5     | Derive triangle results          |
|       | 5     | Enlargements and negative SF     |
|       | 5     | Loci                             |
|       | 5     | Pythagoras                       |
|       | 5     | Similarity and Congruence        |
|       | 5     | Standard constructions           |
|       | 5     | Surface Area                     |
|       | 5     | Trigonometric ratios             |
|       | 5     | Volume                           |
|       | 4     | Alternate and corresponding      |
|       | 4     | angles                           |
|       | 4     | Area of a circle                 |
|       | 4     | Areas of composite shapes        |
|       | 4     | Areas of triangles, trapezia and |
|       |       | parallelograms                   |
|       | 4     | Bearings                         |
|       | 4     | Circle terminology               |
|       | 4     | Circumference of a circle        |
|       | 4     | Congruent triangles              |
|       | 4     | Enlargements and fractional SF   |
|       | 4     | Perimeter of 2D shapes           |
|       | 4     | Plans and elevations             |
|       | 4     | Polygons                         |
|       | 4     | Solve geometrical problems       |
|       | 4     | Vector arithmetic                |
|       | 4     | Volume of prisms                 |

### **Statistics**
