Revision Technique

Anki PRO is one app with a flashcard library. You can also make your own.

As you test yourself, you can check how well you know something by clicking one of the 'feedback' buttons. It then uses '**Active Recall**' to make you look at what you don't know more often.

Revision Resources

Use the exam boards listed above and the link below to see flashcards that have already been created for you in each of your chosen subject areas.
